Tobias Netzeband

Multidisciplinary game artist with hands-on experience building stylized environments, 3D assets, UI/UX and playable prototypes from concept to final presentation.

Solo Games **6**
Game Jams **5**
Engines **Unreal / Unity**

PROFILE

I completed a three-year professional game development training with a broad focus across 3D art, 2D design, UI/UX, level design and implementation. My strongest work sits at the intersection of environment art, readability and player experience. I enjoy building cohesive game worlds and translating ideas into clear, playable experiences.

SELECTED PROJECTS

Bedtime Is A Lie

GRADUATION PROJECT · SOLO ·
UNREAL ENGINE 5 · 6 MONTHS

Created a complete first-person horror case study including environment art, 3D props, UI/UX, lighting and Blueprint systems inside a single, highly readable bedroom environment.

Strange Day

SOLO PROJECT · UNREAL
ENGINE · 6 MONTHS

Built a connected villa environment with interior and exterior spaces, supporting puzzle flow, atmosphere and narrative exploration through environment-led design.

Dungeon Diver

SOLO PROJECT · UNREAL
ENGINE · 6 MONTHS

Designed an interactive hub where navigation, buttons and game systems are integrated into the world itself, combining playful UX with stylized environment presentation.

Lost Little Boy

SOLO PROJECT · UNITY · 6
MONTHS

Produced a complete 2D pixel-art platformer with environment art, animation, level visuals and UI, balancing thematic variety with consistent readability.

EDUCATION

Professional Game Development Training

2023 – 2026 · DRESDEN

Three-year practice-based training covering game art, 3D and 2D asset creation, UI/UX, game design, level design and real-time production workflows in Unreal Engine and Unity.

TEAM & ADDITIONAL EXPERIENCE

Game Jams

5 PROJECTS · TEAM PRODUCTION

Worked in small interdisciplinary teams on rapid production cycles, contributing concept ideas, character design, 2D assets, 3D assets, environment work and coordination.

Barneby – The Game Bar

2019 – PRESENT · WAITER /
BARTENDER

Strengthened communication, reliability, teamwork and calm execution

in a fast-paced environment with direct customer contact.

Portfolio case studies and playable builds are available via the portfolio website and itch.io. References and additional work samples can be provided on request.
