 Born on 10.01.1997 in Lauchhammer

Profile

I am a creative and dedicated person with a diverse background in social, artistic, and technical fields. In recent years, I have gained practical experience in working with people as well as in-depth knowledge in digital design and game development. I stand out for my quick comprehension, pronounced empathy, and strong creative streak – whether in visual concepts, storytelling, or practical implementation. My goal is to work in a role that offers creative freedom and allows me to contribute both my social and design-technical skills.

Professional Experience

2019 – Present

Barneby – The Game Bar (The Entertainment GmbH), Dresden

Waiter & Bartender
