

TOBIAS NETZEBAND

MULTIDISCIPLINARY GAME DEVELOPER | Game Art | Environment & Level Design | UI/UX

Dresden, Germany | +49 177 4499663 | netzebandtobias@googlemail.com

Portfolio | LinkedIn | itch.io

PROFILE

Professionally trained multidisciplinary game developer with three years of practice-based training and hands-on experience across six solo games and five game jams. Strongest focus areas are environment art, game UI/UX and stylized visual design, supported by practical Unreal Engine, Blueprint and Unity implementation knowledge.

6 SOLO GAMES 5 GAME JAMS 2 ENGINES

PROFESSIONAL EXPERIENCE

Barneby - The Game Bar 2019 - Present

Dresden | Waiter & Bartender

- Customer-facing role in a fast-paced hospitality and entertainment environment, requiring reliability, clear communication, teamwork and calm problem-solving during high-volume shifts.

EDUCATION & TRAINING

HTK Academy 2023 - 2026

Professional Game Development Training (Game Creation)

- Completed three-year practice-based training across 3D and 2D art, UI/UX, level design, game design, Unreal Engine, Unity and implementation fundamentals.
- Produced six complete solo game projects and contributed to five game jams in small interdisciplinary teams.

TU Dresden 2021 - 2022

Sociology Studies | 4 semesters

- Developed analytical, research and communication skills through academic study of social structures and human behavior.

AFBB Akademie für berufliche Bildung 2016 - 2019

Abitur | Focus: Health and Social Affairs

Level & Game Design

ENGINE & PRODUCTION

Unreal Engine 4/5 & Blueprints
Unity & Prototyping
Asset Integration & QA

SELECTED PROJECTS

Bedtime Is A Lie 2026

Graduation Project | Unreal Engine 5 | Solo

- Created the complete visual and interactive experience for a first-person paranormal observation game, including environment art, 2D/3D assets, UI/UX, lighting and Blueprint systems.
- Designed 33 anomalies and a readable single-room layout in which props, blocked sightlines and day/night contrast become gameplay information.

Dungeon Diver 5th Semester

Unreal Engine | Solo | 6 months

- Designed a UI-driven digging game with an interactive underwater hub where world objects function as navigation, feedback and progression elements.

GAME DEVELOPMENT EXPERIENCE

Portfolio proof first. This page adds concise context on project scope, ownership and team production.

SELECTED PROJECTS - CONTINUED

Strange Day

4th Semester

Unreal Engine | Solo | 6 months

- Built a connected villa environment and first-person puzzle experience covering concept, game design, environment art, 3D/2D assets, UI, lighting and Blueprint implementation.

Lost Little Boy

1st Semester

Unity | Solo | 6 months

- Created pixel art, animation, level visuals, UI and primary implementation for a 2D platformer across distinct elemental worlds.

Additional solo projects: Spirit Bound (Unreal Engine, third-person exploration) | Guardian of the Garden (Unity, third-person 3D)

TEAM PRODUCTION & GAME JAMS

Deco Depths 5th Semester

3D asset development, rigging, environment work and concept support.

Cutdown 4th Semester

Production coordination and texture work in a rapid team-development setting.

Hooked!! 3rd Semester

Character design, concept development and 2D asset creation.

Feed Me or Die 2nd Semester

Concept, 2D assets, background art and UI/animation support.

Snackscape! 1st Semester

2D asset development and asset placement.

TOOLS & TECHNICAL SKILLS
