PROFESSIONAL STRENGTHS

Cross-disciplinary collaboration | Independent project ownership | Visual communication | Player-focused problem solving | Rapid prototyping | Reliable production under deadlines

SELECTED GAME DEVELOPMENT EXPERIENCE

Six complete solo games developed during professional training. Each project was built over approximately six months and taken from concept to playable result.

Bedtime Is A Lie Graduation Project Unreal Engine 5 First-person paranormal observation game. Created concept, 2D/3D art, environment, UI/UX, lighting and Blueprint systems; designed 33 anomalies.	Dungeon Diver 5th Semester Unreal Engine UI-driven digging game with an interactive underwater hub. Created UI/UX, 2D assets, environmental navigation and Blueprint implementation.
Strange Day 4th Semester Unreal Engine First-person puzzle game around a connected villa. Responsible for concept, game design, environment, 3D/2D assets, UI, lighting and Blueprints.	Spirit Bound 3rd Semester Unreal Engine Third-person 3D exploration game set in an abandoned temple. Created the complete project independently apart from licensed audio.
Guardian of the Garden 2nd Semester Unity Third-person 3D game about restoring a garden and reviving its residents through tools, exploration and environmental progression.	Lost Little Boy 1st Semester Unity 2D pixel-art platformer across elemental worlds. Created pixel art, animation, level design, UI and primary implementation.

TEAM PRODUCTION & GAME JAMS

Hooked!! 3rd Semester	Character design, concept and 2D asset creation.
Deco Depths 5th Semester	3D asset development, rigging, environment work and concept support.
Cutdown 4th Semester	Production coordination and texture work in a rapid team-development setting.
Feed Me or Die 2nd Semester	Concept, 2D assets, background art and UI/animation support.
Snackscape! 1st Semester	2D asset development and asset placement.

TOOLS & TECHNICAL SKILLS

Engines	Unreal Engine 4/5, Blueprints, Unity
3D	Blender, ZBrush, Substance 3D Painter / Designer
2D & Design	Adobe Photoshop, Adobe Illustrator, Procreate
Production	Environment art, level design, UI/UX, game design, prototyping, QA/game testing, asset integration, C# fundamentals
