PROFILE

Multidisciplinary game artist and visual designer with completed three-year professional game-development training and hands-on production experience across **6 solo games and 5 game jams**. Strongest focus areas are stylized 3D environments, UI/UX and visual design, supported by Unreal Engine, Unity and Blueprint knowledge for bringing art into playable builds.

CORE SKILLS & TOOLS

Environment & 3D

Blender, Substance 3D Painter/Designer, environment composition, props, lighting, asset integration

Engines & Technical

Unreal Engine 5, Blueprints, Unity, C# fundamentals, real-time implementation

UI/UX & Visual Design

Game UI, interaction design, information hierarchy, Photoshop, Illustrator, Procreate

Production

Game design, level design, rapid prototyping, solo ownership, cross-disciplinary team work

SELECTED GAME PROJECTS

Bedtime Is A Lie | Graduation Project | Unreal Engine 5 | Solo | 6 months

Created the complete visual and interactive experience for a single-room paranormal observation game: concept, 2D/3D art, environment, UI/UX, lighting and Blueprint systems.

Designed 33 anomalies and a readable bedroom layout where familiar props, blocked sightlines and day/night contrast become gameplay information.

Strange Day | 4th Semester | Unreal Engine | Solo | 6 months

Built a complete first-person puzzle game around a connected villa, including concept, environment art, 3D/2D assets, UI, lighting and Blueprint implementation.

Dungeon Diver | 5th Semester | Unreal Engine | Solo | 6 months

Designed a UI-only digging game with an environmental hub, object-based navigation and a shovel that functions as both cursor and progression tool.

Lost Little Boy | 1st Semester | Unity | Solo | 6 months

Created pixel art, animation, level design and UI for a 2D platformer built around distinct elemental worlds.

TEAM PRODUCTION / GAME JAMS

Hooked!! - character design, concept and 2D assets; one of the strongest short-form team projects in the portfolio.

Deco Depths - 3D asset development, rigging, environment work and concept support.

Cutdown - production coordination and texture work in a rapid team-development setting.

EDUCATION

2023 - 2026 Professional Game Development Training (Game Creation), Dresden

Three-year practice-based training across game art, 3D/2D, UI/UX, level design, game design, Unreal Engine and Unity.

2021 - 2022 Sociology Studies, 4 semesters

2016 - 2019 Abitur, focus on Health and Social Affairs

ADDITIONAL EXPERIENCE & LANGUAGES

2019 - Present Barneby - The Game Bar, Dresden | Waiter & Bartender

Customer-facing work in a fast-paced team environment, requiring reliability, clear communication, flexibility and calm execution under pressure.

Languages: German (native), English (very good)
